**ENCE 305 FLUID MECHANICS**

**Instructor:** Dr. R. McCuen  
**Office:** 1170  
**Phone:** 5-1949  
**Email:** rhmccuen@eng.umd.edu  
**Office hours:** MWF 8-9:45, 11-11:45  
TTh 8-9:15, 10-11:45

**Textbook:** Fluid Mechanics by Finnemore and Franjoni (10th ed.)

**Grading:**  
3 25-min tests/quarter 54%  
1 final exam 36%  
homework 100%

**Homework:** Assigned daily, due @ 10 am of next class period  
**Instructions for Homework:**

When doing the assigned homework problems, the following guidelines must be followed, otherwise points will be deducted from your grade.

1. Put your name in the upper right-hand corner of your paper.
2. Put the problem number in the upper left-hand corner of the paper.
3. Do not use paper ripped out of a spiral notebook; use neatly trimmed sheets.
4. **Staple** all sheets together - do not use paper clips.
5. Write on one side of the sheets only.
6. Clearly underline or box all answers.
7. Write all assumptions and given information at the beginning of the problem - show diagrams, if necessary.
8. Show all of your work in an orderly fashion; do not skip steps.
9. Write neatly. NEATNESS COUNTS!

*These 2 instructions, in particular, will allow an error that you've made to be easily identified and, thus, maximize your chance of receiving maximum credit.
